

Dear Sir/Madam:

Our story, our interest in this cause Tuberous Sclerosis Complex began on May 21, 2012. The newest littlest member of our family was born, my nephew Parker Chisholm. With that came a term, a disease and a lifelong sidekick. Tuberous Sclerosis is a rare, multi-system, genetic condition that causes tumors to develop in different parts of the body, primarily the brain. 1 in 6,000 infants are born with this disease and it does not discriminate.

We decided that we needed to do something not only to help Parker, but other children (and adults) living with this disease. The charity is small, the research limited and the results non-existent. But together, we can change that!

May is TS Awareness Month and on May 30th, we will be hosting Northern Ontario's first ever TS Charity Golf Tournament. I am reaching out to you today, as you are an esteemed member of the business community and a valued member of our city, to see if you would be interested in becoming a sponsor for this event! There are multiple levels of sponsorship available. I have enclosed a sponsorship package for your review.

We hope that you find the passion in your hearts to join us in not only raising awareness, but helping in getting donations to help cure, remedy and supply more knowledge to both the families dealing with this disease and the carriers themselves. Knowledge is power and together we can make a difference!

Sincerely,

Erin K. Chisholm
